

Toshiba Transmission & Distribution (India) Private Limited Receives Prestigious Star Performer Award from EEPC India

November 29, 2023: Toshiba Transmission & Distribution (India) Private Limited (hereinafter TTDI), a leader in India's Transmission & Distribution equipment market, has been honoured with the Star Performer Award for the year 2019-20 by the Engineering Export Promotion Council of India (hereinafter EEPC India).

TTDI has won the National Award for Export Excellence in the category of Electric Motors, Generators, and Transformers and parts – Large Enterprises. Mr. Hiroshi Furuta, Chairman and Managing Director, TTDI received the award at an award function held in New Delhi on November 21.

The Star Performer Award, bestowed by EEPC India, recognizes TTDI for its exceptional performance in exporting its Products to many reputed electrical power distribution utilities and various other customers located in developed / developing countries across the globe.

Speaking on this achievement, **Mr. Hiroshi Furuta, Chairman and Managing Director, TTDI**, expressed gratitude and remarked, "We are honoured to receive this prestigious accolade from EEPC India. Toshiba Corporation, Japan has established TTDI as its global manufacturing hub for T&D business. This recognition reaffirms our dedication to "Make-in-India & Export-from-India" initiative by manufacturing and delivering a wide range of high-quality, reliable and efficient transmission and distribution equipment, which includes Power Transformers, Distribution

Transformers and Gas Insulated Switchgears (GIS). This award motivates us to continue our relentless pursuit of excellence and innovation."

Since its inception, TTDI has delivered its T&D products and solutions to conventional and renewable energy projects in India. TTDI's advanced technology & processes, high-level of background integration, state-of-the-art manufacturing facilities, massive production capacity and a highly skilled workforce yield high-quality T&D equipment that are made-in-India.

To meet the high volume market demand in India and overseas, TTDI is aiming to align its resources and expand capacity in line with the increased opportunities. Through Toshiba Group companies around the world, TTDI will further consolidate global footprint and grow its exports from India.

About Toshiba Transmission & Distribution (India) Private Limited:

Toshiba Transmission and Distribution Systems (India) Private Limited (TTDI) designs, develops, and manufactures T&D products for applications up to 765kV level in India, supporting "Make in India" initiative of the government. TTDI also provides packaged and turnkey solutions that help foster India's transition towards renewable energy.

TTDI will continue to play its part in the growth of the transmission & distribution and green transition landscape and support its customers with its value-added solution of outdoor type GIS for open type installations.

About EEPC India:

EEPC India, is the premier trade and investment promotion organization in India, sponsored by the Ministry of Commerce & Industry, Government of India. As an advisory body it actively contributes in the policies of Government of India and acts as the prime conduit between the Indian Engineering fraternity and the Government. Set up in 1955, EEPC India now has a membership base of around 10,000 predominantly drawing 60% from MSME segment.
